KNOWLEDGE FOCUS

You will answer questions on:

- 10.1 How food is produced
- 10.2 The global patterns of food supply and demand
- 10.3 The challenges of food supply
- 10.4 How our energy is produced
- 10.5 The global patterns of energy supply and demand
- 10.6 The impacts of energy production

EXAM SKILLS FOCUS

In this topic you will:

- show that you understand the command word 'give' and answer a 'give' question
- show that you understand the command word 'justify' and answer a 'justify' question.

'Give' questions assess your ability to recall, select and communicate knowledge and understanding in a straightforward manner. For example, you may have to give a piece of data from a geographical data source or give a reason for something.

'Justify' means to support a case with evidence/argument. This could be when you are arguing for a certain point. For example, you may need to give reasons for the continued use of non-renewable energy sources, despite their impact on the environment and climate.
