

2 Coastal environments

9

KNOWLEDGE FOCUS

You will answer questions on:

- 2.1 Physical processes that shape the coast
- 2.2 The main landforms associated with these processes
- 2.3 Coasts present opportunities and hazards for people

EXAM SKILLS FOCUS

In this topic you will:

- show that you understand the command word 'describe' and answer a 'describe' question
- recognise that you need to keep to time in your exam.

The command word 'describe' means to state the points of a topic / give characteristics and main features. You do not need to give reasons in an answer to a 'describe' question. You only need to focus on the points of a topic or the characteristics and main features of what you have been asked to describe.

Keeping to time is important in your exam. If you understand how much time to spend on a particular question, then you can focus your answer and know when to move on to the next question. This will help you to avoid spending too long on one question which could result in you running out of time in the exam. As a very rough guide, you should aim to spend between 1–1.5 minutes per mark. For some questions, you may need longer for reading time and planning, and for other questions, you may be able to answer the question very quickly.
