

4.2 The processes and features associated with earthquakes and volcanoes

UNDERSTAND THESE TERMS

- Focus
- Epicentre

- 1** What is the difference between the focus and the epicentre of an earthquake?

b Draw a diagram to show this difference.
- 2** Draw a labelled diagram to show a cinder cone volcano and its main features.
- 3** What are the three frequency-of-activity classifications for volcanoes?
- 4** What are three volcanic hazards?
- 5** Study Figure 4.4.

Figure 4.4: A volcano erupting

- a** Identify the type of volcano shown. [1]
- b** Suggest **three** hazards associated with this type of volcanic eruption. [3]

~~c~~ Study Figure 4.5.

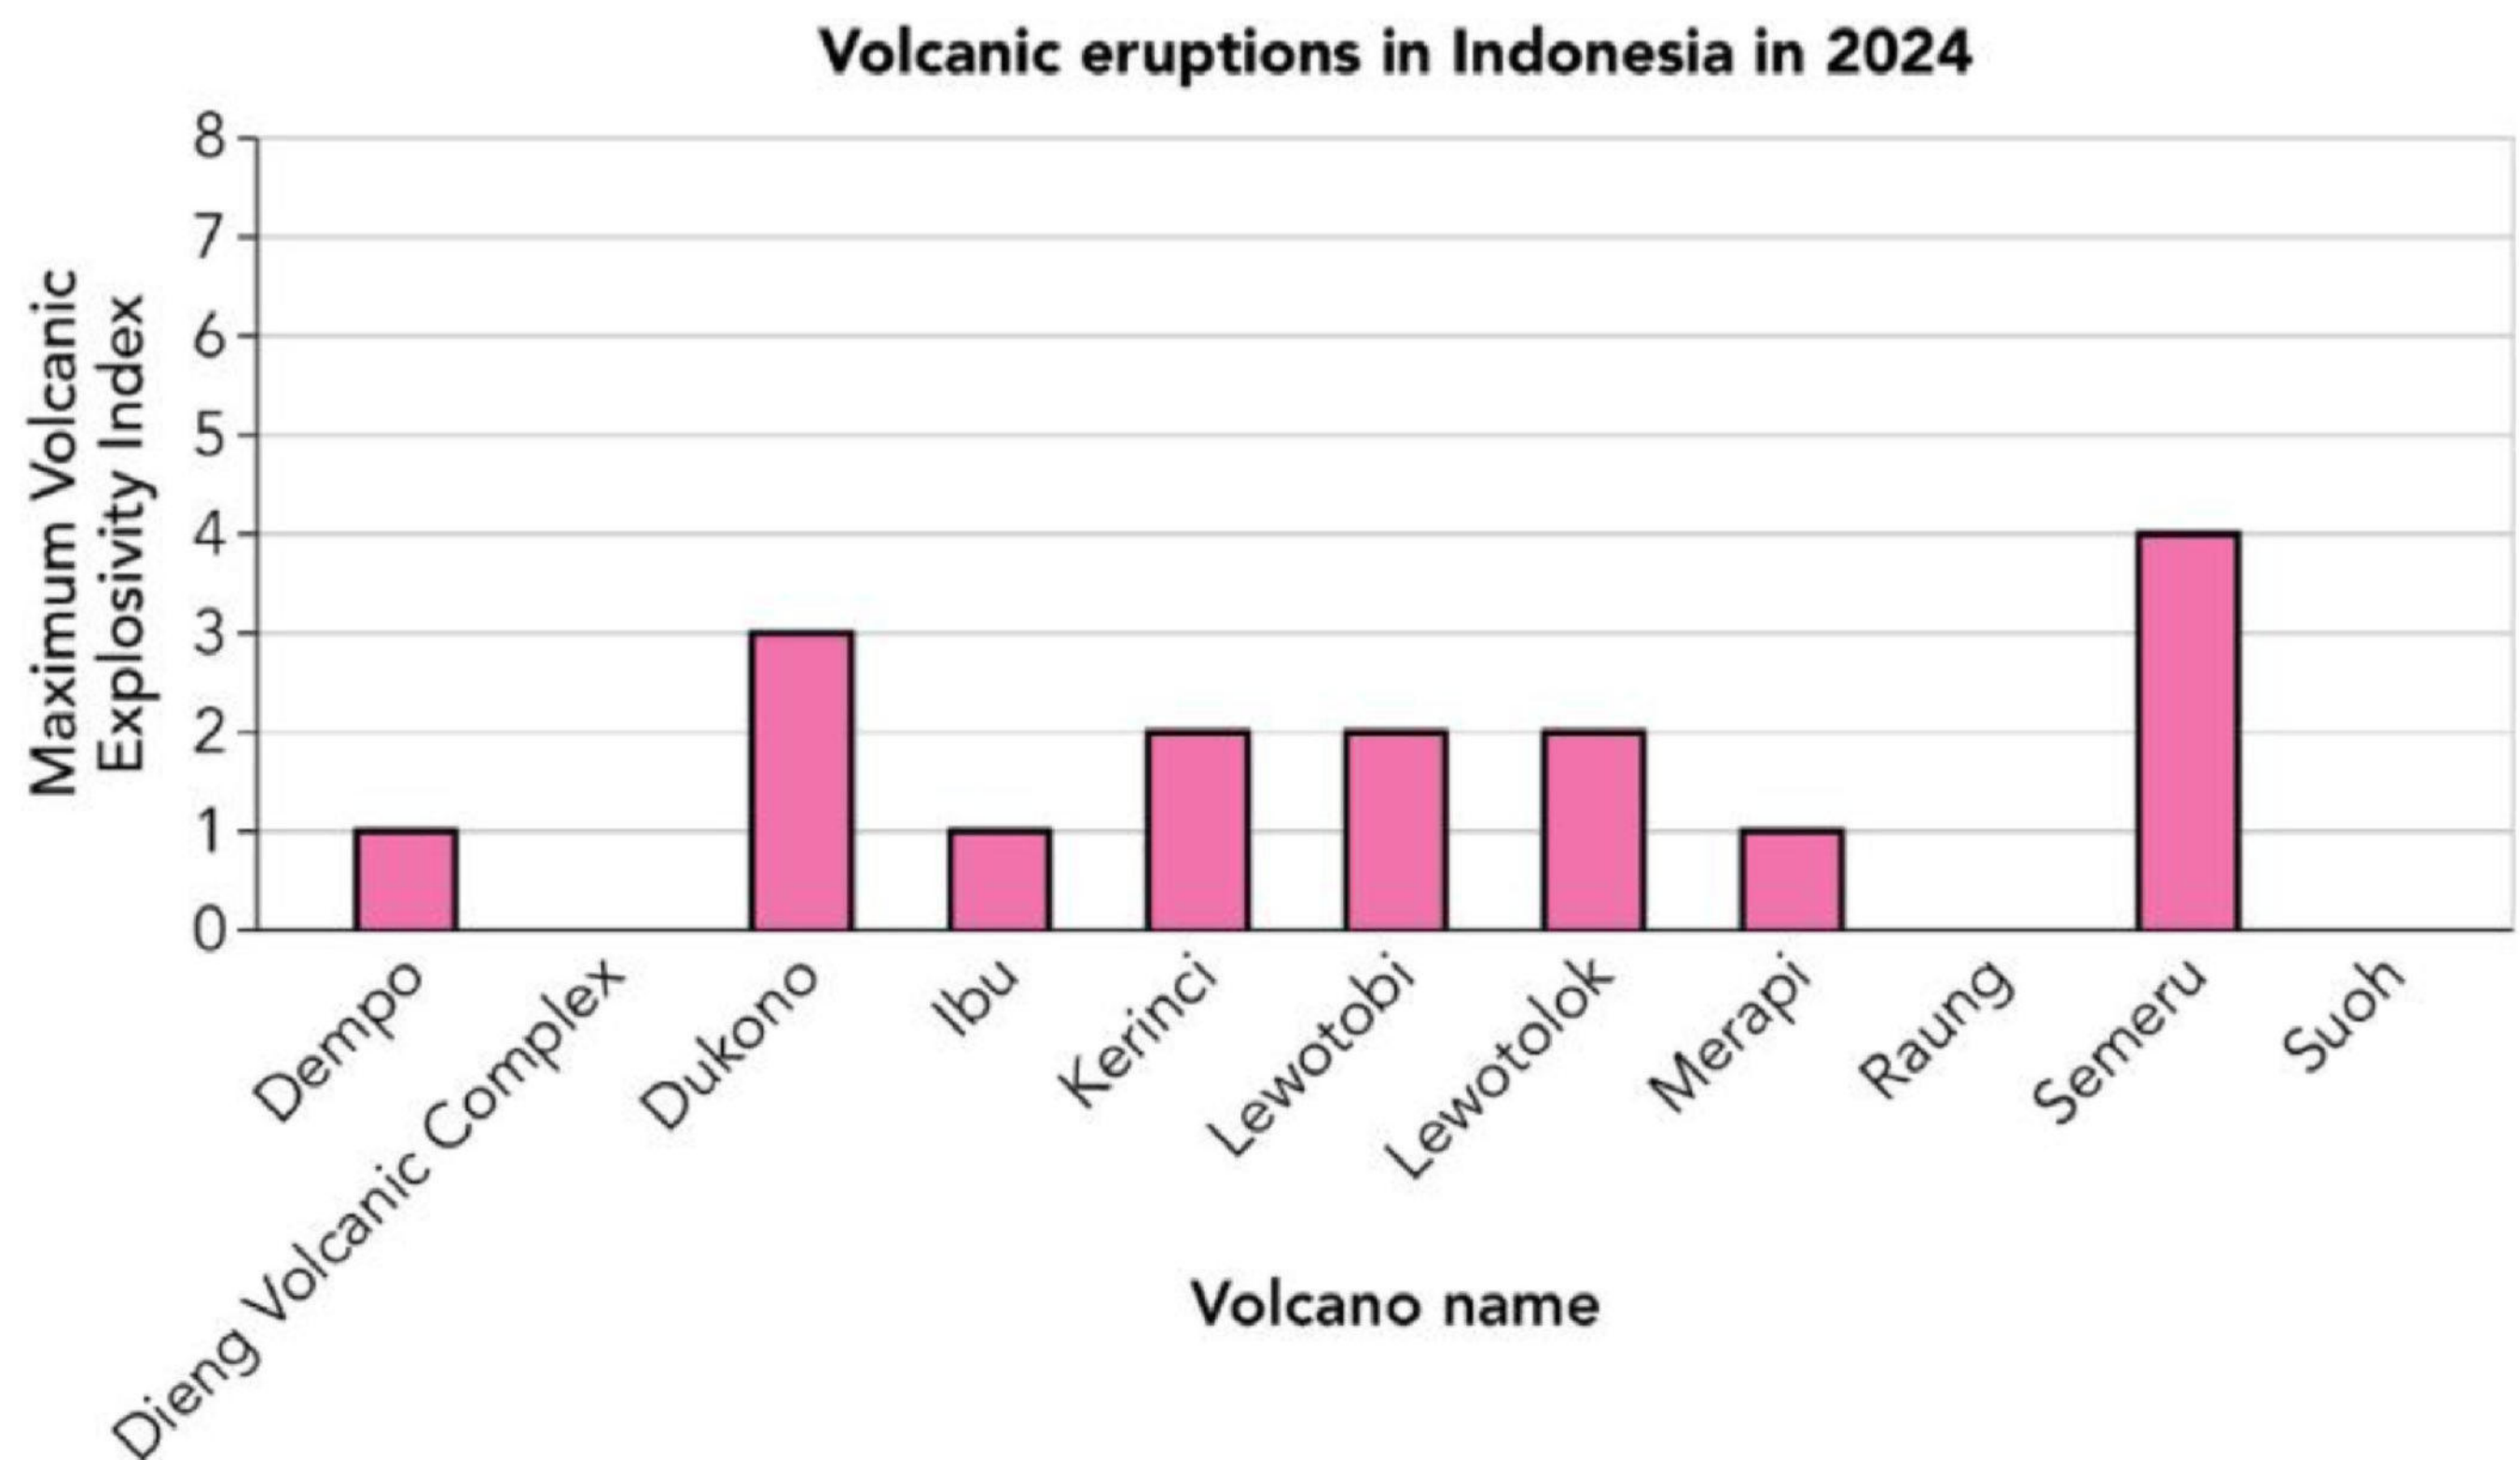

Figure 4.5: Volcanic eruptions in Indonesia in 2024

► **Image Description**

Identify the volcano with the largest eruption in Indonesia in 2024.

[1]

7 Study Figure 4.6.

Figure 4.6: A plate boundary in North America

- a** Identify the plate boundary shown. [1]
- b** Suggest **one** hazard associated with this plate boundary type. [1]
