

4.4 Managing the impacts of tectonic hazards

- 1** **a** What is a primary response?
- b** What is a secondary response?
- c** Study Figure 4.7.

Figure 4.7: A primary response to an earthquake

What primary response to an earthquake is shown?

- 2** Draw a diagram to show how buildings can be protected from earthquake hazards.

- 3** How does planning help reduce the impacts of tectonic hazards?
- 4** Identify **one** primary response to a volcanic eruption. [1]
- 5** Identify **one** secondary response to a volcanic eruption. [1]
- 6** Using an example you have studied, suggest how the impacts of earthquakes can be reduced. [7]

UNDERSTAND THESE TERMS

- Primary response
- Secondary response

« RECALL AND CONNECT 2 «

Tectonic hazards can also be an attraction for tourists, bringing economic benefits to areas that are vulnerable to the impacts of volcanoes. See if you can answer the questions below from [Topic 9, 'Economic change'](#).

- a** Suggest two factors that have led to the global growth of tourism.
- b** What is the difference between the primary and quaternary employment sectors?
- c** How does the employment structure of a high-income country (HIC) typically differ from that of a low-income country (LIC)?

SELF-ASSESSMENT CHECKLIST

Let's revisit the knowledge focus and exam skills focus for this topic.

Decide how confident you are with each statement.

Now I can	Show it	Needs more work	Almost there	Confident to move on
Describe the Earth's structure	State the name of the layer between the Earth's crust and core.			
Describe the processes and features of earthquakes and volcanoes	Draw a labelled diagram that shows a shield volcano and its features.			
Outline the impacts of tectonic hazards	Give three social impacts of an earthquake that you have studied.			
Evaluate the management of tectonic hazards	Discuss the view that earthquakes are easier to manage than volcanic eruptions.			
Understand the command	Answer an 'identify' question confidently, such as 'Identify one			

Now I can	Show it	Needs more work	Almost there	Confident to move on
word 'identify'	tectonic hazard associated with a transform/conservative plate boundary.'			
Understand the command word 'suggest'	Answer a 'suggest' question confidently, such as 'Suggest how planning can reduce the impacts of tectonic hazards.'
